

- Note:**
1. This play structure design will meet ADA Accessibility Guidelines for Buildings and Facilities, effective November 17, 2001 as published by the Architectural and Transportation Barriers Compliance Board with the addition of NA ground level play components of NA different types of play and when installed over accessible surfacing.
 2. This site plan should be checked against the actual site area prior to the purchase or installation of equipment.
 3. The end of measure located in the center of the platform indicates the height above the platform surfacing level. The protective surfacing for this design must accommodate a fall height of at least 9 ft.
 4. The structure size for this unit is 11' X 21', including protective surfacing for an overall size area of 22' X 33'. The approximate surface area is 900 sq. ft. as required by ANSI Z39-8 guidelines.
 5. The structure is designed to accommodate 30 children from 3 to 12 years of age.
 6. Supervise Children as they play.
 7. To ensure that accurate measurements are obtained from this site plan, print copies on 11 x 17 paper at full scale.
 8. The customer responsibility is to check local soil conditions and drainage within the site. The site must also be surveyed by a registered utility prior to construction.
 9. Completely read your installation manual prior to beginning construction.
 10. This design configuration is the property of this firm and Playland Inc. and may not be reproduced or used in any manner without the expressed written consent of this firm and Playland.
 11. Particular Attention: 24 End Support Timbers (4 long
