

PLAYLAND

- Notes:**
1. This play structure design will meet all Accessibility Guidelines for Buildings and Facilities, effective November 11, 2000 as published by the Architectural and Transportation Barriers Compliance Board with the addition of NA ground level play components of NA different types of play and when installed over accessible surfacing.
 2. This site plan should be checked against the actual site area prior to the purchase or installation of equipment.
 3. The wall of pressure treated lumber in the center of the platform indicates the height above the platform surfacing level. The surfacing surfacing for this design must accommodate a full height of at least 5 ft.
 4. The structure size for this wall is 26' X 10' requiring surfacing surfacing for an overall size area of 37' X 22'. The approximate surface area is 700 sq. ft., as applied by 200 7' 10\"-10' guidelines.
 5. The structure is designed to accommodate 25 children from 2 to 12 years of age.
 6. Separate Children or Play play.
 7. It is noted that separate measurements are obtained from this site plan, your copies on 8 1/2 X 11 paper of full scale.
 8. The customer responsibility is to check local soil conditions and drainage within the site. The site must also be surveyed for underground utilities prior to installation.
 9. Complete and your installation manual prior to beginning construction.
 10. This design specification is the property of this firm and Physical Inc. and may not be reproduced or used in any manner without the expressed written consent of this firm and Physical Inc.
 11. Particular Region 26 Last Steps Endless Fun

Structure does not meet ADA Guidelines
